GROUP SIZE: 5 - 10 people

NEXT DEPARTURE: 13 Jul 2025

8 Trees Planted for each Booking

K2 Base Camp and Concordia in Pakistan is one of the world's great treks. You will see breathtaking scenery of the Karakoram mountains towering over Baltoro glacier.

The journey starts with a flight from Islamabad to Skardu in Gilgit Baltistan. From the plane you will see spectacular views of Karakoram including Nanga Parbat. After several nights in Skardu we take jeep transport to the road head of the trek at Jhola.

Mount K2 at an altitude of 8,611m is the second highest mountain in the world. It is a steep mountain and the climbing routes are technical. The first ascent was in 1954 by an Italian expedition following the Abruzzi spur.

The trekking route up the Baltoro glacier has superb mountain views all the way up to Concordia. On our walk we will see the Trango Towers, Muztagh Tower, Masherbrum, K2 and Broad Peak among many others. Galen Rowell described Concordia in his book as the "Throne Room of the Mountain Gods". We camp at Concordia and will see its unique panorama of 7,000m and 8,000m mountains and impressive views of K2. Mitre Peak is the prominent peak near Concordia.

To find out more about the challenges of K2 Base Camp trek, you can read our Blog article [Everest Base Camp in Nepal versus K2 Base Camp in Pakistan](#).

Every year in mid-July we organise two groups to K2 Base Camp starting at the same time in Islamabad. The K2 Base Camp & Concordia group will walk back down Baltoro glacier from Concordia. Whereas the [K2 Base Camp & Gondogoro La](#) group will cross this high pass at an altitude of 5,560m. You will need mountaineering skills to cross this technical pass.

REASONS TO CHOOSE US

- We are Karakoram trekking specialists having operated trips in Pakistan since 2004. [Roland Hunter](#) has designed the itinerary from his first-hand experience of this trek.
- The Mountain Company has organised fourteen successful K2 Base Camp treks. For more information on how these treks went please take a look at our Trip Reports.
- We work with some of the best mountain leaders with deep knowledge of trekking in Karakoram. Unlike many other operators, we use trained international leaders for this trip.
- We have included a gradual ascent profile in our itinerary for this trekking holiday. This will help you acclimatise to the high altitude.
- We organise our K2 Base Camp & Concordia trek at the same time as our K2 & Gondogoro La trek. Our international leader will lead both groups on the approach to K2 Base Camp. On the descent from Concordia, this leader will go over Gondogoro La. One of our Pakistan guides will lead the K2 Base Camp group descending Baltoro. The two groups will meet up again at Concordia Motel in Skardu on Day 18.
- Our [AITO Traveller Reviews for K2 Base Camp](#) and [AITO Traveller Reviews for K2 Base Camp & Gondogoro La](#) have a holiday rating of 100%. Based on client feedback we won the 2018 Gold Award as AITO Tour Operator of the Year. Read more about our [Testimonials and Awards](#).
- Weather forecasts for the K2 region during your trek.
- We send a Thuraya satellite phone on our group treks in Pakistan. Your leader will have reliable communications for logistics, planning and group safety. We use GPS to upload your location daily onto Google Maps to track your progress during the trek.
- We provide a range of tasty meals for breakfast, lunch, and supper. For breakfast, we provide fresh coffee from our Bialetti Moka coffee machine.
- We bring a comprehensive medical aid kit. There will also be a portable altitude chamber (PAC or Gamow bag).
- Our team with first-hand knowledge of this trek provides pre-trip support.

WHAT'S INCLUDED

- Internal flights. The flights are Islamabad - Skardu - Islamabad. If cancelled then we will drive on Karakoram Highway.
- Twin-share rooms at hotels.
- Breakfast only in Islamabad, all meals are included in Skardu and while on the trek.
- Twin share tents while on the trek. These are three-person domed tents with plenty of space for two people sharing plus gear.
- Trekking arrangements. Including permits and fees, tents, International and Pakistan guides, porters, and cooks.
- Porters and/or pack animals to carry your main bag. The portage allowance is 15kg.
- Weather forecasts for the K2 region during your trek.
- Thuraya satellite phone for organising logistics and medical evacuations. It can also be also used for personal calls at extra cost.
- GPS tracking on Google Maps. Your friends and family can track your progress during the trek.
- UK-registered charity, Pipal Tree, will plant 8 trees for you in the Gurkha Memorial Forest in southern Nepal.
- Full financial protection for bookings from the UK (ATOL) and internationally (ABTOT). Our Air Travel Organiser's Licence (ATOL) number is 10921. Our Association of Bonded Travel Operators Trust (ABTOT) membership number is 5365).
- Pre-departure support and advice from The Mountain Company. We are available by email, phone, Zoom, or face-to-face meetings

WHAT'S NOT INCLUDED

- International flight to/from Islamabad.
- Travel & trekking insurance.

- Pakistan visa for 30 days.
- Lunch and evening meals in Islamabad.
- Personal clothing & equipment, please see Practical Information for kit list.
- Tips to the trek crew. Each trekker should budget for giving tips into the group fund. This should be in the region of £140 or US\$175.
- Other items not listed in "What is included".

ITINERARY

DAY 1: ARRIVE IN ISLAMABAD (540M)

Arrive in Islamabad

Sightseeing in Islamabad

No meals

Hotel Hillview in Islamabad

We meet you on arrival at Islamabad airport and drive to the hotel. At some point during the day, your leader will give the trek briefing and check your gear. The rest of the day is free to explore Islamabad and pack your bags.

DAY 2: FLY TO SKARDU (2,228M)

Flight to Skardu

Breakfast, Lunch and Dinner

Concordia or K2 Motel in Skardu

This morning we take the PIA flight to Skardu in Gilgit-Baltistan.

DAY 3: JEEP DRIVE TO ASKOLE (3,048M)

Drive by jeep to Askole (6 hours)

Breakfast, Lunch and Dinner

Camping

We have a spectacular drive on a winding jeep trail with several steep sections. A short distance from Skardu we cross the Indus river on a bridge near the confluence with the Shigar river. We drive up the wide open Shigar valley passing some larger villages and their fields.

Further up at the next river confluence we follow the Braldu river upstream. As we ascend the gorge it gets steeper and more arid. We pass a few villages with green fields from irrigation and shaded by apricot trees. Askole is the last village in this valley.

The time to drive to Askole depends on the condition of the road which varies year to year. The Braldu section is prone to landslides and these can block the road. The locals are very good drivers and will come up with a solution to clear the road or use jeeps on the other side.

DAY 4: TREK TO JHOLA (3,170M)

Walking 15km (6 hours)

Walking ascent 300m

Walking descent 150m

Breakfast, Lunch and Dinner

Camping

After Askole, we start the trek by following the trail next to the Braldu river. Once passed the snout of the Biafo glacier we arrive at Korofong. We cross a tributary called Dumordo River on a new bridge to arrive at Jhola. In the past, the locals used an old trolley system or “jhola” with a bucket to cross the river hence the name of this place. The views from here are impressive with Bakhor Das (5,809m) and Paiju Peak’s needles in the distance.

If it is a sunny day then it can be very hot with temperatures often approaching 40C. It is important to bring plenty of water (at least three litres), wear a sun hat and apply plenty of sun cream.

DAY 5: TREK TO PAIJU (3,383M)

Walking 20km (6 to 7 hours)

Walking ascent 620m

Walking descent 350m

Breakfast, Lunch and Dinner

Camping

From Jhola, we follow the main trail to K2 Base Camp via Bardumal camp (also known as Skambong Scok). We follow a trail around a corner to join the Braldu valley again. Bardumal camp is in a large flat area next to the river. After Bardumal we have to cross several side rivers that sometimes involve a river crossing by foot if the bridges have been washed away. These rivers are glacier-fed and on a hot day, they will be fast-flowing due to snow melt. Paiju is a green oasis under the shadows of Paiju Peak (6,611m). From this camp, we have the first views of the immense Baltoro Glacier.

DAY 6: TREK TO KHOBURTSE (3,566M)

Walking 12km (7 hours)

Walking ascent 785m

Walking descent 355m

Breakfast, Lunch and Dinner

Camping

After an hour from Paiju, we start walking on the Baltoro glacier for the first time. The path on the glacier

is on rocky moraine and we should take care as the surface is uneven. We recommend the use of trekking poles. For the next two days the glacier has many ice ridges so we have to ascend and descend these slopes as we head up.

We will stop for lunch at the old campsite at Lilligo. After this break we cross below the snout of the Lilligo Glacier and back on to the Baltoro. The trail is indistinct in places and it is easy to lose your way. It is important for the group to stay together with local guides to show the way. We walk up and down several moraine ridges before arriving at the Khoburtse campsite.

DAY 7: TREK TO URDUKAS (4,130M)

Walking 6km (4 hours)

Walking ascent 420m

Walking descent 150m

Breakfast, Lunch and Dinner

Camping

From camp we follow a trail along the lateral moraine next to the glacier. Further along we descend down onto Baltoro and pass two side glaciers. It is a short day but quite hard work as we walk up the undulating moraine, gaining height all the way. During the walk there are superb views of Trango & Cathedral spires. We also see Mount Uli Biaho (6,005m) and Mount Biale (6,841m). The camp at Urdukas is very impressive with views over the Baltoro and to these mountains. As we are over 4,000m we stay at Urdukas for two nights for acclimatisation to the high altitude.

DAY 8: ACCLIMATISING DAY AT URDUKAS (4,130M)

Breakfast, Lunch and Dinner

Camping

We have found in the past that taking a rest day at Urdukas has worked well. The advantages of spending an extra night here are:

- It helps the acclimatisation process and has proved to be more effective than a rest day at Paiju (3,383m).
- There is a walk behind the campsite through grassy slopes full of alpine flowers. By climbing high and sleeping low is the best way to help your body adapt to high altitude.
- This is the last campsite on grassy slopes off the main glacier. There are also facilities for washing and cleaning.

DAY 9: TREK TO CORO 2 (4,250M)

Walking 11km (7 hours)

Walking ascent 535m

Walking descent 280m

Breakfast, Lunch and Dinner

Camping

From camp we descend onto the glacier and we will stay on the ice until our return to Urdukas. As we are higher up the Baltoro glacier the glacial ice is flatter. The walking is easier than before as we cross fewer moraine ridges. We walk in the centre of the glacier and have superb views of both sides lined by high mountains. There are views of Muztagh (7,270m) and Masherbrum (7,800m). We see Gasherbrum IV (7,925m) at the head of the Baltoro glacier near Concordia. The campsite at Goro II is on the glacier. There are ledges on the rock levelled out for the tents.

DAY 10: TREK TO CONCORDIA (4,600M)

Walking 12.5km (6 hours)

Walking ascent 700m

Walking descent 380m

Breakfast, Lunch and Dinner

Camping

We walk up the centre of the Baltoro to Concordia. Now we are higher on the glacier there is ice underfoot and less rock. The walking is easier as the Baltoro is much flatter here. Concordia is where the Baltoro, Abruzzi and Godwin Austen glaciers converge. This is an incredible place surrounded by high peaks. We get our first views of the magnificent K2 to the North. We can also see Broad Peak and some of the Gasherbrum group.

DAY 11: TREK TO K2 BASE CAMP (5,150M) AND BACK TO BROAD PEAK BASE CAMP (4,960M)

Walking 16km (8 hours)

Walking ascent 425m

Walking descent 150m

Breakfast, Lunch and Dinner

Camping

From Concordia the route passes through jumbled ice fins and moraine ridges. This is the fracture zone where Godwin Austen glacier meets the Baltoro. After crossing this area we start walking on the flatter glacier towards Broad Peak. Godwin Austen glacier has alternating stripes of pure ice and rocky moraine. Sometimes we walk on the flatter ice as this is easier to walk on than the loose rock on the medial moraine.

After reaching Broad Peak Base Camp we continue the walk up to K2 Base Camp and to Gilkey Memorial. On the return we walk back to Broad Peak Base Camp where we camp for the night. We place our tents on moraine near the base of the climbing route on Broad Peak. One of the best views of K2 is from Broad Peak Base Camp.

DAY 12: TREK BACK TO CONCORDIA (4,600M)

Walking 8km (5 hours)

Walking ascent 450m

Walking descent 500m

Breakfast, Lunch and Dinner

Camping

This morning we hike back down to Concordia following the same trail as our ascent yesterday. Once back at Concordia the trek crew will make preparations for the split in the two groups tomorrow. Our international leader will take our K2 & Gondogoro La group out over Gondogoro La. Our K2 Base Camp group will descend the Baltoro with our Pakistani guide. The two groups will meet up again in Skardu after the trek.

DAY 13: TREK TO GORO 1 (4,150M)

Walking 17km (8 hours)

Walking ascent 375m

Walking descent 600m

Breakfast, Lunch and Dinner

Camping

Sadly we cannot stay at Concordia forever. Today we start our retreat down the Baltoro glacier stopping for the night at Goro 1. We retrace our steps by taking the same route back down to Askole. The advantage is to have another chance at seeing the mountains if obscured by clouds on the way up. It is a long walk out to the road head yet most trekkers enjoy seeing these impressive mountains again.

DAY 14: TREK TO KHOBURTSE (3,566M)

Walking 10km (8 hours)

Walking ascent 750m

Walking descent 1,080m

Breakfast, Lunch and Dinner

Camping

We continue the trek back down the Baltoro with an overnight camp at Khoburtse.

DAY 15: TREK TO PAIJU (3,383M)

Walking 12km (6 hours)

Walking ascent 400m

Walking descent 800m

Breakfast, Lunch and Dinner

Camping

We come off the Baltoro glacier and spend the night at the green oasis of Paiju.

DAY 16: TREK TO JHOLA (3,170M)

Walking 20km (8 hours)

Walking ascent 500m

Walking descent 750m

Breakfast, Lunch and Dinner

Camping

The trail from Paiju passes through Bardumal to the road-head at Jhola camp. On completion of the trek, we can celebrate our success with our last night under canvas. We hand out tips to the porters as a token of appreciation for their hard work throughout the trek. We also often give any spare kit that we no longer need by way of thanks.

DAY 17: TREK TO ASKOLE

Walking 15km (6 hours)

Walking ascent 150m

Walking descent 300m

Breakfast, Lunch and Dinner

Camping

From Jhola, we cross the bridge and retrace the same path as before via Korofong to Askole.

DAY 18: DRIVE TO SKARDU (2,225M)

Drive by jeep to Skardu (8 to 9 hours)

Breakfast, Lunch and Dinner

Concordia or K2 Motel in Skardu

Today we drive back to Skardu by jeep and meet up with the Gondogoro La group at the hotel.

DAY 18: FLY TO ISLAMABAD

- 1) Flight to Islamabad
- 2) Bus to Chilas (7 hours)

Breakfast

- 1) Hotel Hillview in Islamabad
- 2) Hotel Shangri La in Chilas

We plan to take the early morning flight to Islamabad (inshallah!).

DAY 20: BUFFER OR CONTINGENCY DAY

Fly to Islamabad

Breakfast

Hotel Hillview in Islamabad

Today is a buffer day in case of any delays experienced along the way. If we managed to take the flight on time yesterday then we will spend the day in Islamabad. In the evening we have a group meal to celebrate our journey in the Karakoram mountains of Pakistan.

DAY 21: FLY BACK HOME

Flight back home

Breakfast

Transfer to airport for flight home. End of trip.

PRACTICAL INFORMATION

A Typical Day On Trek

A TYPICAL DAY ON CAMPING TREK IN PAKISTAN

We provide a comfortable experience on our camping style treks in Pakistan. Our team works hard to support you so that you can relax and enjoy the trek. We provide personal tents, mess tent, kitchen tent and toilet tent(s). The camp will be set up and dismantled by the trek crew. We bring along a cook and kitchen helpers to provide the meals.

The day starts with an early morning mug of tea in the mess tent. Before breakfast you pack your overnight gear into your duffel bag. During breakfast the trek crew pack away the tents. The porters arrange their loads and set off on the trail in the cool of the morning. After breakfast, between 7am and 8am, we start walking.

The pace of the trek is moderate as there is plenty of time in the itinerary to reach the camp for tonight. There will be plenty of time to enjoy the scenery, take photos and explore the local villages. Lunch will be around midday at a spot by the side of the trail. Our cooks prepare lunch for us and the food is usually ready by the time the group arrives.

After lunch we continue the walk and on most days we arrive to camp by mid afternoon. Some of the trek crew would have gone ahead of the group to set up camp and to put up the tents. On arrival to camp you will get a hot drink and biscuits. In the evening our cook will provide a three course meal in the mess tent around 6pm.

After supper the leaders will discuss the plan for the next day. Afterwards people might stay in the mess tent chatting about the day's events or playing cards. After a tiring day most people head to their tent quite early for the night. Tomorrow is likely to be very similar as today! The only difference is that if we are crossing a high pass or climbing to a summit we leave camp earlier in the morning.

Food provided on Camping Trek

FOOD PROVIDED ON CAMPING TREK IN PAKISTAN

While on a camping style trek in Pakistan we provide tasty and nutritional food. We make sure there is more than enough quantity to go around as trekkers will be hungry after a long day on the trail. Over the years we have worked on increasing the variety of the menus. We have expanded the list of ingredients provided to the cooks so they have more to work with.

For breakfast we provide porridge or cereal, toast or chapatis and eggs. There will be hot drinks including tea, hot chocolate and coffee. We provide fresh coffee from our Bialetti Moka coffee machine.

For lunch we stop at a convenient spot with water at the side of the trail. The cook and kitchen walk ahead of the group in the morning and lunch should be ready shortly after our arrival. After lunch we have time to relax before starting to walk again in the afternoon.

On arrival at camp in the afternoon you have biscuits and a hot drink such as tea or coffee. Around 6pm we serve a three course meal in the mess tent. The starter is often soup with popcorn or poppadoms. We have a range of main dishes and carbohydrates including rice, potatoes or pasta. Most meals are also served with delicious flat breads made fresh by the cooks.

We cater for a variety of dietary requirements. Our meals are suitable for vegetarians. If there is a meat dish then we also provide vegetarian options as standard. During booking we find out if you have any dietary needs and agree upon meal plans before departure. If you have any questions about the food provided please get in touch with us to discuss further.

Communications

COMMUNICATIONS

We bring a Thuraya satellite phone for logistical, safety and personal use. Personal calls charged at £4 (US\$5 or €4.50) per minute and £2 (US\$3 €4.50) to send and receive SMS text.

Kit List

KIT LIST FOR K2 BASE CAMP & CONCORDIA TREK

This is the mandatory kit list for the safety of everyone in the group and to ensure a successful trek. You must have the following items tailored for K2 Base Camp & Concordia trek. The group leader will check your gear in Islamabad or Skardu before departure for the trek.

As a reminder, the weather on this trek will vary season to season and day to day as you ascend to higher elevations. At the start of the trek you will experience very hot conditions with temperatures up to 40 Celsius. You experience the coldest temperatures in Broad Peak Base Camp at an altitude of 4,960m. Overnight lows here will be down to around -10 Celsius.

You should bring a rucksack or backpack for gear required during the day. Your pack should contain items such as warm clothes, jacket, camera, water bottles, personal first aid kit and snacks. **The weight limit is 5kg.** A porter will carry the rest of your personal equipment packed in a duffel or kit bag. **The weight limit for your duffel bag is 15kg.** Please mark your bag on the outside for easy identification.

Print the kit list and tick items off as you pack them then weigh your kit bag before you come on trek.

Footwear

- Walking Boots. A pair of water repellent boots with ankle support. Boots must be in good condition, the best approach is to get new boots and break in before the trek. Over the years we have had several boots fall apart so you should also bring trail shoes as a backup.
- Trail shoes. Used around camp and as a replacement if your walking boots fall apart!
- Sandals. Enclosed sandals are best to protect your feet during river crossings. Required for river crossings as well as two trekking poles.
- Walking socks.

Clothing

- Waterproof and Windproof jacket (with hood) and trousers (goretex or similar). For use if it rains or snows during the trek and in windy conditions.
- Trekking trousers. (eg. Mountain Hardwear Mesa V2 or The North Face Paramount Peak).
- Soft Shell Trousers.
- Long sleeve tops or shirts (not cotton).
- Micro fleece.
- Mid to heavyweight fleece or synthetic/ primaloft top.
- Sleeveless/ gilet or body warmer type fleece / synthetic top. This will help keep your core warm while not bulking when layering up. Gilet used in combination with base layers, other fleeces and down jacket. This provides the most warmth and insulation.
- Thermals or base layer for top & bottom (merino wool or synthetic).
- Medium weight down jacket.

Head and Gloves

- Fleece gloves.
- Warm mittens and/or gloves.
- Wool or fleece hat.
- Sun hat.
- Bandana or scarf (eg. Buff Headwear).
- Head torch. Bring extra batteries.
- Sunglasses. The lenses need to be Category 4 rated. They should have side protection or wraparound design.

For walking on the glacier

- Trekking poles (Black Diamond with "Flick Lock" are best). Two poles are mandatory for your safety. These will be helpful on steep sections of the trail and river crossings. Also for walking on snow or ice higher up.
- [Kahtoola Microspikes](#) or [YakTrax Summits](#). For your security when walking on sections of the glacier with snowy or icy conditions. They fit onto your walking boots.
- Gaiters. A pair of knee high gaiters used to keep boots dry if walking through snow or on wet ground.

Personal equipment

- Sleeping bag. Overnight lows down to -10 Celsius.
- Fleece or silk liner for your sleeping bag. A liner protects your sleeping bag from getting dirty. Also helps by adding extra insulation to keep you warm at night.

- Sleeping mat (eg. Thermarest). On trek we provide everyone with a foam mat. We recommend two layers for insulation and comfort. We also provide everyone with a pillow.
- Day pack. Recommended size is around 40 litres. You need to have enough space to carry water bottles, camera, snacks and extra clothing and climbing gear. The pack should have a good waist belt. It is also a good idea to bring a rain cover to keep the contents dry.
- Stuff sacks for keeping your gear dry and organised. Or even better are fold dry bags such as from Exped.
- Two water bottles. Nalgene wide mouth bottles are the best. You may use a hydration pack lower down but the tube will freeze in the cold so ensure you still have two water bottles.
- Pee bottle. Recommended as means you do not have to get up to find the toilet tent at night! For men you can use an old water bottle. For women take a look at SheWee.
- Sunscreen and lip salve with a high SPF.
- Water purification tablets (Pristine, Biox Aqua or Aqua Mira).
- Favourite snack food.
- Books and cards etc.
- Camera with spare batteries and memory cards.
- Insurance certificate.
- Earplugs (optional).
- Baby wipes (optional).
- Hand sanitizer. Keep this in your day pack for use after a toilet break during the trek or before eating any snacks. We provide sanitizer for use before meals.

Travelling

- Duffel bag for your personal gear on the trek. A porter will carry your bag. Rugged and waterproof made of a plastic material. Size 100-120 litres. Eg. Mountain Equipment 100l or Rab 120l. Bring a small combination padlock to secure the bag.
- Travel clothes. You will need casual clothing for air travel days and time spent in Islamabad and Skardu.
- Toiletry bag with soap, travel towel, toothbrush etc. We provide toilet paper while on trek.

Personal first aid kit

We provide a [comprehensive group first aid kit](#). Please bring personal medications and other items you might use such as:

- Any personal medications.
- Blister treatment (Compeed patches are the best)
- Rehydration powder (eg Dioralyte).
- Analgesics (paracetamol, ibuprofen and aspirin).
- Plasters and zinc oxide tape.
- Throat lozenges.
- Diamox (helps with acclimatisation).

Threat and risk assessment

RISK ASSESSMENT FOR K2 BASE CAMP & CONCORDIA TREK

You should be aware trekking in a developing country involves a risk of personal injury or death. You must accept these risks and be responsible for your own actions and involvement. Adventure travel requires an open and flexible attitude. You may experience extreme conditions and unpredictable weather. There could be last-minute changes to the itinerary beyond our control. The ability to work in a team is an important aspect of our trips.

We have performed a threat and risk assessment for our K2 Baltoro trek. Our trips have a degree of risk. This is part of the attraction of adventure travel and why so many people choose to join this type of holiday. By identifying the hazards we assess the level of risk. We have control measures in place to reduce this happening or to reduce the impact.

Our risk assessment is available to clients on request. We have listed below a summary of the significant risks and hazards identified by us:

- Personal security such as terrorism or kidnapping.
- Falls and trips resulting in physical injury e.g. slipping on ice or falling off the path.
- Altitude illness including but is not limited to AMS, HACE, and HAPE.
- Getting lost or becoming separated from the group e.g. at Concordia or K2 Base Camp in a whiteout.
- Severe bad weather and conditions when camping e.g. at Broad Peak Base Camp.
- Climatic injuries (dehydration, sunburn, heat exhaustion, hypothermia, or heat stroke). It will be very hot for the first few days of the trek with temperatures of up to 40 Celsius.
- Crossing a river with no bridge resulting in drowning and/ or a fall. There are several river crossings on the trail.
- Rockfall and landslides e.g. on the jeep track Skardu to Jhola via Askole and sections of the trek.
- Snow and ice avalanches.
- Lightning strike.
- Wildlife, pack animals (e.g. donkeys or horses), or stray dogs. Pack animals can knock people off the path. Dogs can attack and bite. Discuss rabies vaccination with your doctor.
- Earthquake.
- Risk of fire in the hotel.
- Endemic local diseases. Discuss vaccinations with your doctor before departure.
- Physiological injury. Such as heart attack, appendicitis, hernia, toothache, etc. in a remote area.
- Road traffic accident. The drive along the jeep track Skardu to Askole and onto Jhola has sections with a high degree of exposure.
- Flight accident on Islamabad – Skardu – Islamabad route.
- Contaminated food and/ or water.

This trip visits a remote area. You are away from the usual emergency services and medical facilities. Evacuation for a serious injury requiring hospitalisation could take up to several days. This delay could impede your ensuing recovery. Helicopters are the usual means of evacuation. They are not always available or hindered by poor weather and flying conditions.

Weather and conditions

WEATHER AND CONDITIONS FOR K2 BASE CAMP

K2 trek has a wide range of temperatures. This depends on the altitude, weather and time of day. In the mountains between 1,000m and 3,500m the nights will be cool around 5 Celsius. During the day temperatures can rise on a sunny day to 40 Celsius. Bring lots of water, sunhat and sunscreen. At higher altitudes temperatures range from about 20 Celsius to -10 Celsius.

The trekking season in Pakistan is from early July to end of August. From our experience of running trips in Karakoram the best time is mid July to mid August. It is likely you will get some rain while on trek when pulses of monsoon clouds push to the north. You should expect to get one third of the trek with sun, one third with cloudy conditions and one third with rain.

Islamabad is hot and humid in July and August as this is the monsoon season. Temperatures range from 30 to 46 Celsius with high humidity. The temperatures in Skardu at 2,340m will be cooler and is dryer as in the rain shadow of Nanga Parbat.

ACCOMMODATION

K2 MOTEL IN SKARDU

K2 Motel is in a lovely position overlooking the Indus river. It is the classic place that many expeditions and trekking groups have stayed over the years.

It is a short walk taking about 15 minutes into the main part of Skardu town and the bazaar. K2 Motel has 28 rooms and a restaurant plus a garden at the back of the property.

HILL VIEW HOTEL IN ISLAMABAD

Hotel Hill View is a modern hotel and is a comfortable base for our groups while in Islamabad. It is a short

walk to Jinnah market where there are good restaurants and shops.

Hotel Hill View has a store room where you can leave luggage not required while on trek. You can also leave any gear not needed on trek at K2 Motel in Skardu. There is wifi at the hotel.

TRIP REPORTS

TRIP REVIEWS

REVIEW BY VAL ON 03/09/2022

Trek to K2 Base Camp An amazing trek into the Karakoram seeing 4 of the world's 8000m peaks - K2, Broad Camp, Gasherbrum I and II. A complete escape from day-to-day life completely off-grid and away from civilization in the most amazing scenery in every direction. Our tour operator took care of everything so we could just focus on getting ourselves from camp to camp - which was at times challenging with altitude, heat, and rough terrain. Plenty of unexpected challenges with bridges washed away but the logistics still all ran smoothly. Our leader, Nat Wilson, was outstanding and looked out for the whole team's health and well-being with all of us making it to K2 basecamp. Our local guides, chefs, and porters all offered great service. We met teams with other operators who had not had such a smooth experience with their logistics. ...

Trekking to K2 is an amazing adventure A special trek that was a true adventure in Pakistan, trekking up the Baltoro Glacier to K2 Basecamp. The Glacier is huge and the mountains on either side are so impressive, and every one of them has a history of past mountaineering exploits. The support and service provided right from the start is excellent . Excellent website, with a very prompt and enthusiastic response to any enquiries and questions. I regularly trek with The Mountain Company because I know they ensure their treks are very well-planned, equipped, and led. ...

K2 Base Camp & Concordia Trek Pakistan An amazing 3 week's trip to the Karakoram Mountains in Pakistan trekking up the Baltoro Glacier to Concordia (the Throne of the Gods) which provides a sublime 360-degree vista of mountain views. We were really lucky with the weather and had blue skies and sunshine for the majority of the trek which gave us amazing views. Having completed this trip I now completely understand why it is classed as strenuous!! If the sun is shining there is no respite from the elements and the walking is hard. That said, this made the trip even more rewarding, and the whole group made it to K2 Base Camp and the Gilkey Memorial. I spoke to a number of trekking companies before opting for The Mountain Company to arrange a private group trek to K2 Base Camp. I was really impressed by all aspects of their organisation, from the pre-trek admin and guidance through to the arrival in Islamabad. They managed to get us away a day early from Skardu during the Eid Festival (no mean feat). We were aware that other trekking groups struggling to get documentation and porters for their trips but TMC who have operated treks in Pakistan for a number of years and have established relationships meant it all ran smoothly for us. Our leader Nat Wilson was exceptional, and our local Guide and Porters were also great, but our cook Zulfi kept us fuelled by producing the most amazing meals for us. ...
