Pikey Peak trek follows a delightful trail in the lower Everest region known as Solu Khumbu. From the summit there is a panoramic view of the highest mountain of the world, Mt. Everest, at an elevation of 8,848m.

After a drive from Kathmandu the trek begins from the small town of Shivalaya. This place is also known as the old starting point for the traditional [Everest Base Camp](#) trek. Most people take a flight to Lukla airstrip so the trails in the lower Everest region do not have many trekkers.

With this eight day trek, you will see a wonderful cross section of Nepal. For accommodation we stay at tea house lodges operated by local villagers. After leaving Shivalaya you hike through villages surrounded by terraced fields. Tamang and Sherpas are the predominant ethnic castes in this region. We will observe Sherpa culture as we hike through the lower Everest region.

Further up above the villages we enter forests of oak, birch, rhododendron and bamboo. As we approach Pikey Base Camp we are above the tree line and now in the alpine zone. The summit of Pikey Peak is at an altitude of 4,065m. This is an incredible panoramic viewpoint of the Himalayan range. From the summit you can see Mount Everest, Mount Numbur and Mount Lhotse. The late Sir Edmund Hillary once said "Pikey Peak is the most astounding place to gaze at Mt. Everest".

Other highlights of this trip are a visit to the monastery called Thupten Chöling Monastery. We also taste the local cheese from the grazing yaks (or naks) plus local organic foods.

## REASONS TO CHOOSE US

- In October 2019 we organised a reconnaissance trek by Ade Summers. Ade works for us as one of our international leaders. He inspected the lodges and walked this trail up to the summit of Pikey Peak (4,065m). We have modified the itinerary based on his feedback.
- We include all meals at the teahouse lodges (breakfast, lunch, afternoon tea, and dinner) while on the trek. Importantly, we clearly define what dishes and drinks we provide so there is no confusion in terms of what is allowed. Given the amount of food and drinks we include, there should be no need to spend any extra money on additional food.
- We are Himalayan trekking specialists having operated trips in Nepal for many years. [Roland Hunter](#) has helped to design the itinerary from his first-hand experience of this trek.
- The gradual ascent profile for this trekking holiday has worked well for our past groups.
- Our [AITO Traveller Reviews for Pikey Peak](#) have a holiday rating of 100%. Based on client feedback we won the 2018 Gold Award as AITO Tour Operator of the Year. Read more about our [Testimonials and Awards](#).
- We review weather forecasts for the Everest region throughout the duration of this trek.
- We send a Thuraya satellite phone on our group treks in Nepal. Your leader will have reliable communications for logistics, planning, and group safety.
- We provide the porters with windproof jackets & trousers and shelter. We follow International Porter Protection Group ("IPPG") guidelines.

Hotel Ambassador in Kathmandu

This is a one day guided sightseeing tour of the Kathmandu Valley. We visit three out of the seven World Heritage Sites. You start off by visiting Patan Durbar Square. Afterwards you drive to the Buddhist stupa at Boudhanath. The last stop of the day at the Hindu shrine of Pashupatinath. The tour is likely to finish around 4pm and the rest of the day is free to further explore Kathmandu.

Three major towns in the valley, Kathmandu, Patan and Bhaktapur. Each place has great artistic and architectural traditions. Kathmandu is the capital and the largest city in the country. Patan, the second largest separated from Kathmandu by Bagmati river. Bhaktapur, the third largest, is towards the eastern end of the valley. Its relative isolation reflected in its slower pace and more medieval atmosphere. In Kathmandu there is a bustle of activity especially in the bazaars and markets. While the city has expanded over the last 10 years it is still possible to see traditional buildings and temples.

## PRACTICAL INFORMATION

A Typical Day On Trek

### TYPICAL DAY ON A TEAHOUSE TREK IN NEPAL

We provide a comfortable experience on our teahouse lodge-style treks. Our team works hard to support you so that you can relax and enjoy [trekking in Nepal](#). The lodges provide your meals in a communal dining room. You will sleep in private rooms with a shared bathroom. There is a range of standards and service in teahouse lodges depending on location. i.e. lodges at higher altitudes and places with fewer trekkers tend to have more basic facilities.

The day starts with getting up in your room shared with another trekker in our group. Before heading for breakfast you pack your overnight gear into your main bag (this could be a duffel, kit bag, or rucksack). You would have given your breakfast orders to the guide to pass onto the kitchen last night. At the designated time the group will assemble in the dining room to eat breakfast. Breakfast includes cereal, porridge, or rice pudding and an egg dish with bread or toast plus two cups of hot drinks such as tea, coffee, or lemon ginger honey.

While the group is having breakfast the porters arrange their loads and set off in the cool of the morning. After breakfast, between 7am and 8am, we start walking. The pace of the trek is moderate as there is plenty of time in the itinerary to reach the lodge for tonight. Enjoy the scenery, take photos, and explore the local villages. Lunch will be around midday at a teahouse lodge by the side of the trail. This includes one dish such as fried rice, dal bhat, momos, or pasta plus two cups of hot drinks.

After lunch, we continue the walk and on most days we arrive at the lodge around mid-afternoon. On arrival, you will get a hot drink and biscuits. For dinner, you get a two-course dinner (soup and main meal). The menus are quite standard with a range of dishes such as dal bhat, momos, and the famous Sherpa stew. Dal bhat is a Nepalese dish of rice and lentils with vegetable curry. It is also possible to order spaghetti and pasta; pizzas; vegetable burgers and chips and fried rice. We also provide up to two cups of hot drinks per meal.

After supper, the leaders will discuss the plan for the next day. Afterward, people might stay in the dining room chatting about the day's events or playing cards. After a tiring day, most people head to their rooms quite early for the night. Tomorrow is likely to be very similar to today!

You can read more about [Teahouse Trekking in Nepal](#) on our Blog. This article explains the facilities available at a teahouse lodge. It also describes the advantages and disadvantages of camping-style treks. Plus the amount to budget for extra costs. We also touch upon what to pack for a teahouse trek, safety, and security plus responsible use of the lodge.

## Meal Plan

### MEAL PLAN

We include all meals at the teahouse lodges (breakfast, lunch, afternoon tea, and dinner) while on the trek. Importantly, we clearly define what dishes and drinks we provide so there is no confusion in terms of what is allowed. Given the amount of food and drinks we include, there should be no need to spend any extra money on additional food. However, some people will pay for extra treats along the way such as to get cake and a coffee at the bakeries and cafes!

If you are comparing our prices with other operators you should be careful to compare apples with apples. These days many operators do not include meals in their packages when staying at the teahouse lodges. The food at the lodges is expensive and will cost an average of £25 (US\$35) per person per day. If you are paying for the meals directly to the lodges you would need to carry a lot of cash including the tip money too. Having this amount of money with you will be a security risk and for peace of mind, it is better to pay for the meals to us when booking the trip. Also, it will be difficult to know in advance how much cash to bring with you on the trek (there are no ATMs when on trek). Furthermore, in practice, it will be complicated and time-consuming for you and the guides to work out individual bills after checking out each day from the lodge.

With our meal plan, you can select your dishes from the menu at the lodge. In our package, we include the cost of your breakfast, lunch, afternoon tea, and dinner. Breakfast includes cereal, porridge, or rice pudding and an egg dish with bread or toast. Lunch includes one dish such as fried rice, dal bhat, momos, or pasta. For afternoon tea, you get a hot drink plus biscuits. Dinner is two courses including soup and the main dish chosen by you from the menu. You are allowed two cups of hot drinks per meal so this means a total of seven cups per day.

We cater to a variety of dietary requirements. There are always meals that are suitable for vegetarians. During booking, we find out if you have any dietary needs and agree upon meal plans before departure. If you have any questions about the food provided please get in touch with us to discuss further.

## Communications

### COMMUNICATIONS

We bring a Thuraya satellite phone for logistical, safety and personal use. Personal calls charged at £4 (US\$5 or €4.50) per minute and £2 (US\$3 €4.50) to send and receive SMS text.

#### Kit List

### KIT LIST FOR PIKEY PEAK

This is the mandatory kit list for the safety of everyone in the group and to ensure a successful trek. You must have the following items tailored for Pikey Peak trek. The group leader will check your gear in Kathmandu before departure for the trek.

As a reminder, the weather on this trek will vary season to season and day to day as you ascend to higher elevations. At the start of the trek you will experience warm conditions with temperatures up to 20 Celsius. You experience the coldest temperatures in Pikey Peak Base Camp at an altitude of 3,640m. Overnight lows here will be down to around -8 Celsius.

You should bring a rucksack or backpack for gear required during the day. Your pack should contain items such as warm clothes, jacket, camera, water bottles, personal first aid kit and snacks. **The weight limit is 5kg.** A porter will carry the rest of your personal equipment packed in a duffel or kit bag. **The weight limit for your duffel bag is 15kg.** Please mark your bag on the outside for easy identification.

Print the kit list and tick items off as you pack them then weigh your kit bag before you come on trek.

### Footwear

- Walking Boots. A pair of water repellent boots with ankle support. Boots must be in good condition, the best approach is to get new boots and break in before the trek.
- Trail shoes. Used around lodge.
- Walking socks.
- Gaiters. A pair of knee high gaiters used to keep boots dry if walking through snow or on wet ground.

### Clothing

- Waterproof and Windproof jacket (with hood) and trousers (goretex or similar). For use if it rains or snows during the trek and in windy conditions.
- Trekking trousers. (eg. Mountain Hardware Mesa V2 or The North Face Paramount Peak).
- Long sleeve tops or shirts (not cotton).
- Micro fleece.
- Mid to heavyweight fleece or synthetic/ primaloft top.
- Sleeveless/ gilet or body warmer type fleece / synthetic top. This will help keep your core warm while not bulking when layering up. Gilet used in combination with base layers, other fleeces and down jacket. This provides the most warmth and insulation.
- Thermals or base layer for top & bottom (merino wool or synthetic).
- Medium weight down jacket.

### Head and Gloves

- Fleece gloves.
- Warm mittens and/or gloves.
- Wool or fleece hat.
- Sun hat.
- Bandana or scarf (eg. Buff Headwear).
- Head torch. Bring extra batteries.
- Sunglasses. The lenses need to be Category 4 rated. They should have side protection or wraparound design.

### Personal equipment

- Sleeping bag. Overnight lows down to -8 Celsius. It is possible to rent a bag from Shonas Rental in Kathmandu.
- Fleece or silk liner for your sleeping bag. A liner protects your sleeping bag from getting dirty. Also helps by adding extra insulation to keep you warm at night.
- Day pack. Recommended size is around 30 litres. You need to have enough space to carry water bottles, camera, snacks and extra clothing. The pack should have a good waist belt. It is also a good idea to bring a rain cover to keep the contents dry.
- Trekking poles (Black Diamond with "Flick Lock" are best). Two poles are mandatory for your safety. These will be helpful on steep sections of the trail and river crossings. Also for walking on snow or ice higher up.
- Stuff sacks for keeping your gear dry and organised. Or even better are fold dry bags such as from Exped.
- Two water bottles. Nalgene wide mouth bottles are the best. You may use a hydration pack lower down but the tube will freeze in the cold so ensure you still have two water bottles.
- Pee bottle. Recommended as means you do not have to get up to find the toilet tent at night! For men you can use an old water bottle. For women take a look at [SheWee](#).
- Sunscreen and lip salve with a high SPF.
- Water purification tablets (Pristine, Biox Aqua or Aqua Mira).
- Favourite snack food.
- Books and cards etc.
- Camera with spare batteries and memory cards.
- Insurance certificate.
- Earplugs (optional).
- Baby wipes (optional).
- Hand sanitizer. Keep this in your day pack for use after a toilet break during the trek or before eating any snacks. We provide sanitizer for use before meals.

## Travelling

- Duffel bag for your personal gear on the trek. Will be carried by a porter. Rugged and waterproof made of a plastic material. Size 80-100 litres. Eg. Mountain Equipment or Rab. Bring a small combination padlock to secure the bag.
- Travel clothes. You will need casual clothing for air travel days and time spent in Kathmandu.
- Toiletry bag with soap, travel towel, toilet paper, toothbrush etc.

We provide a [comprehensive group first aid kit](#). Please bring personal medications and other items you might use such as:

- Any personal medications.
- Blister treatment (Compeed patches are the best)
- Rehydration powder (eg Dioralyte).
- Analgesics (paracetamol, ibuprofen and aspirin).
- Plasters and zinc oxide tape.
- Throat lozenges.
- Diamox (helps with acclimatisation).

Threat and risk assessment

## RISK ASSESSMENT FOR PIKEY PEAK TREK

You should be aware trekking in a developing country involves a risk of personal injury or death. You must accept these risks and be responsible for your own actions and involvement. Adventure travel requires an open and flexible attitude. You may experience extreme conditions and unpredictable weather. There could be last-minute changes to the itinerary beyond our control. The ability to work in a team is an important aspect of our trips.

We have performed a threat and risk assessment for our Pikey Peak trek. Our trips have a degree of risk. This is part of the attraction of adventure travel and why so many people choose to join this type of holiday. By identifying the hazards we assess the level of risk. We have control measures in place to reduce this happening or to reduce the impact.

Our risk assessment is available to clients on request. We have listed below a summary of the significant

This trip visits a remote area. You are away from the usual emergency services and medical facilities. Evacuation for a serious injury requiring hospitalisation could take up to several days. This delay could impede your ensuing recovery. Helicopters are the usual means of evacuation. They are not always available or hindered by poor weather and flying conditions.

Weather and conditions

## **WEATHER AND CONDITIONS FOR PIKEY PEAK TREK**

Pikey Peak trek has a wide range of temperatures. This depends on the season, altitude and time of day. In the mountains between 1,000m and 3,500m the nights will be cool around 5 Celsius. During the day temperatures sometimes rise to 20 Celsius. At higher altitudes temperatures range from about 15 Celsius to -8 Celsius.

The trekking season in Nepal is late September to May. October and November is generally recognised as having the best weather. Spring is a popular time of year with warmer weather than in Autumn. Also there is the advantage of seeing spring flowers and rhododendrons in bloom.

The trekking months with highest temperatures are April, May, September and early October. The trekking months with the lowest temperatures are March, November and December.

We have written a blog article [When is the best time to go trekking in Nepal Himalaya?](#) This has information about the weather and conditions in Spring and Autumn seasons. It also explains the differences between the trekking regions of Nepal.

## ACCOMMODATION

### TEAHOUSE LODGE IN NEPAL

While on a teahouse lodge trek in Nepal, there are twin share rooms with common bathroom and a heated communal dining room. We will provide all meals at the lodges and include breakfast, lunch, afternoon tea, and biscuits plus a two-course dinner (soup and main meal) plus up to two cups of hot drinks per meal. We regularly inspect and select the best lodges in each location.

## HOTEL AMBASSADOR IN KATHMANDU

We have used [Hotel Ambassador](#) in Kathmandu for our groups since it was rebuilt in 2017. Since then we have received positive feedback on their service and location. This is our first choice hotel for trekking groups in Kathmandu. Rooms are well appointed with a reliable supply of hot water for use in the shower. The windows have double glazing so it keeps the rooms very quiet. They serve an excellent breakfast buffet from 7am to 10am. A sundowner on their rooftop bar and restaurant called Foreign Affairs is a must do!

### REVIEW BY PP TRIO ON 02/06/2023

Beautiful eight-day trek in an as yet lesser-known area of Nepal- with fabulous mountain views (on a clear day) The trek offered a combination of challenge (we reached a summit of 4,300m), glorious landscape filled with rhododendrons, and wonderful visits to monasteries. The trip was tailored to our group of three, allowing for our moderate level of fitness and, most importantly, giving us time to adjust to altitude. The start of the trail was a day's drive from Kathmandu - yet although this is a fairly accessible route, we saw few other tourists either on the trail or at the seven teahouses we stayed in. We drank copious amounts of mint tea and ate wholesome meals of dhal bhat (rice and lentils with veg) at the teahouses - some accommodation more comfortable than others. We had two porters along with two guides who took patient care of us and gave us charming insight into the region. Even choosing which trek to take in Nepal can be daunting. We were very impressed by the care taken by The Mountain Company over preparing us for the trip. We had many email exchanges with Roland Hunter, who was very thorough and meticulous in assessing our needs and putting together an itinerary. We also enjoyed an extremely helpful Zoom session with him The result was that we had exactly the right gear for the trek (some of which we hired in Kathmandu thanks to Roland) and the holiday very much met all expectations. Having a tailor-made trip was a great boon, giving us flexibility to change a day's route and walking distance - and enabling us to take in a local festival. ...

Pikey Peak adventure. Another well organised and fantastic trek. This was the best of the three treks that I

have done so far with The Mountain Company. Purna our guide was brilliant as usual and Samir, our porter, is a rising star. He only has basic English but his customer service was excellent. This is a trek that shows you the real, rural Nepal. You are walking in areas where you will not see many other trekkers and will get to interact with the Nepalese where they actually live and farm. The Lodges were fine if you have trekked before and your expectations are correct. Three of the lodges were to a very good standard with hot showers, electricity, and Wi-Fi, the remaining were very basic but that said, it was no problem as everywhere was clean and we had everything we needed. Surprisingly, even the loos were clean and user-friendly which is not always the case in Nepal. We spent quite a few days up and down around 3500 m which I found challenging but rewarding. One of the highlights of the trek was the day we summited Pikey Peak. We got up at 4 am, had a quick hot drink and cookies, and climbed for about 60 minutes by head torch up to the top of Pikey Peak, arriving at 5.30 am. We were the first there and had about 10 minutes before anyone else arrived. It was absolutely brilliant and moved me to tears. The sky was on fire and a deep red and the sunrise was everything I had hoped it would be. It was cold on the top but if you are wearing the correct gear then no problem. Everywhere on this trek, there is evidence of new lodges being built. I think this will be a very popular trek in the coming years and am pleased that I experienced it now whilst it is still raw and untamed. The temperature was below freezing on a few nights with a hard frost so a good sleeping bag is essential. In conclusion, a brilliant 10/10 trek that for me, was the Nepal trek of my dreams and that I don't know how can be improved on. My challenge is going to be finding the next trek, one that supersedes the perfection of this trek. This is my third trek in Nepal with The Mountain Company and once again they have provided a stress-free adventure due to their total professionalism and attention to detail. From the initial planning, through the arrival in Kathmandu and during the actual trekking, everything was smooth and easy and I felt totally at ease and supported. I can not recommend this company too highly and would like to once again thank Roland and his team for all their efforts. ...
