A trek to the remote semi-independent Kingdom of Upper Mustang located north of Annapurna on the Tibet border

Our Upper Mustang itinerary has been carefully designed to explore the quieter areas of Upper Mustang and in most places to stay away from the new road. We approach Lo Manthang on the west side of the Kali Gandaki and descend on the less visited east side of this valley.

Upper Mustang is located north of Annapurna and at an average altitude of 4,000m is geologically and culturally part of the Tibetan plateau. The valleys are arid and dry with colourful rock formations containing many cave dwellings high up in the cliffs. The first trekking parties were allowed into Upper Mustang in 1992 and there are still very few people (about 700 trekkers each year) visiting Upper Mustang as a result it is one of the few places left where one can see undisturbed Tibetan culture.

Mustang is a remote semi-independent Tibetan Kingdom with a walled capital called Lo Manthang. Upper Mustang was once part of Tibet and was used by the salt caravans crossing the Himalaya into Nepal. It became an independent kingdom in 1380 and the current royal family can trace their lineage back to this time. In 1960's Mustang was a strong hold for Tibetan Khampa guerrillas fighting the occupying Chinese forces. CIA supported these fighters and secretly trained some of them in the US.

ITINERARY

DAY 1: ARRIVE IN KATHMANDU (1,400M)

Arrive in Kathmandu

No meals

Hotel Ambassador in Kathmandu

You will be met on arrival at Kathmandu airport and driven back to the hotel. Please provide travel plans on booking and we will arrange the pick up and transfer.

DAY 2: SIGHTSEEING IN KATHMANDU

Sightseeing in Kathmandu

Breakfast

Hotel Ambassador in Kathmandu

This is a one day guided sightseeing tour of the Kathmandu Valley visiting three out of the seven World Heritage Sites. You will start off by visiting Patan Durbar Square then drive to the Buddhist stupa at Boudhanath followed by the last stop of the day at the Hindu shrine of Pashupatinath. The tour is likely to finish around 4pm and the rest of the day is free to further explore Kathmandu as well as to pack your bags for the trek starting tomorrow morning. You can leave a bag at the hotel with items not needed on trek.

Three major towns are located in the valley, Kathmandu, Patan and Bhaktapur, each having a great artistic and architectural tradition. Kathmandu is the capital and the largest city in the country. Patan, the second largest is separated from Kathmandu by a river. Bhaktapur, the third largest, is towards the eastern end of the valley and its relative isolation is reflected in its slower pace and more distinctly mediaeval atmosphere.

In the Valley the landscape is dramatically sculpted by the contours of the paddy fields. The towns and villages are alive with the colours of farm produce, ranging from pyramids of golden grain to the vivid reds of chilli peppers laid out on mats to dry in the sun. In the streets and towns there is a constant bustle of activity, especially in the bazaars and markets where the farmers sell their vegetables and fruit.

DAY 3: FLY TO POKHARA (827M)

Fly to Kathmandu

Breakfast

Mount Kailash Resort in Pokhara

After taking the short flight to Pokhara you have the rest of the day to explore and relax in the city. For the flight we suggest you sit on the right side of the aircraft for views of the Himalayas as we fly westwards.

Important note: there is a safety risk to consider when flying on airlines in Nepal. If you would like to avoid the flight from Kathmandu to Pokhara there is an option to drive and this takes about 6 to 7 hours (depending on the traffic). There are also safety considerations with driving in Nepal as the roads are busy and road traffic accidents happened from time to time. For information about the aviation risk in Nepal read the relevant sections "Threat and Risk Assessment" and "Internal flights in Nepal". Please get in touch with us if you would like to discuss this further.

PRACTICAL INFORMATION

A Typical Day On Trek

TYPICAL DAY ON A TEAHOUSE TREK IN NEPAL

We provide a comfortable experience on our teahouse lodge-style treks. Our team works hard to support you so that you can relax and enjoy [trekking in Nepal](#). The lodges provide your meals in a communal dining room. You will sleep in private rooms with a shared bathroom. There is a range of standards and service in teahouse lodges depending on location. i.e. lodges at higher altitudes and places with fewer trekkers tend to have more basic facilities.

The day starts with getting up in your room shared with another trekker in our group. Before heading for breakfast you pack your overnight gear into your main bag (this could be a duffel, kit bag, or rucksack). You would have given your breakfast orders to the guide to pass onto the kitchen last night. At the designated time the group will assemble in the dining room to eat breakfast. Breakfast includes cereal, porridge, or rice pudding and an egg dish with bread or toast plus two cups of hot drinks such as tea, coffee, or lemon ginger honey.

While the group is having breakfast the porters arrange their loads and set off in the cool of the morning. After breakfast, between 7am and 8am, we start walking. The pace of the trek is moderate as there is plenty of time in the itinerary to reach the lodge for tonight. Enjoy the scenery, take photos, and explore the local villages. Lunch will be around midday at a teahouse lodge by the side of the trail. This includes one dish such as fried rice, dal bhat, momos, or pasta plus two cups of hot drinks.

After lunch, we continue the walk and on most days we arrive at the lodge around mid-afternoon. On arrival, you will get a hot drink and biscuits. For dinner, you get a two-course dinner (soup and main

meal). The menus are quite standard with a range of dishes such as dal bhat, momos, and the famous Sherpa stew. Dal bhat is a Nepalese dish of rice and lentils with vegetable curry. It is also possible to order spaghetti and pasta; pizzas; vegetable burgers and chips and fried rice. We also provide up to two cups of hot drinks per meal.

After supper, the leaders will discuss the plan for the next day. Afterward, people might stay in the dining room chatting about the day's events or playing cards. After a tiring day, most people head to their rooms quite early for the night. Tomorrow is likely to be very similar to today!

You can read more about [Teahouse Trekking in Nepal](#) on our Blog. This article explains the facilities available at a teahouse lodge. It also describes the advantages and disadvantages of camping-style treks. Plus the amount to budget for extra costs. We also touch upon what to pack for a teahouse trek, safety, and security plus responsible use of the lodge.

Meal Plan

MEAL PLAN

We include all meals at the teahouse lodges (breakfast, lunch, afternoon tea, and dinner) while on the trek. Importantly, we clearly define what dishes and drinks we provide so there is no confusion in terms of what is allowed. Given the amount of food and drinks we include, there should be no need to spend any extra money on additional food. However, some people will pay for extra treats along the way such as to get cake and a coffee at the bakeries and cafes!

If you are comparing our prices with other operators you should be careful to compare apples with apples. These days many operators do not include meals in their packages when staying at the teahouse lodges. The food at the lodges is expensive and will cost an average of £25 (US\$35) per person per day. If you are paying for the meals directly to the lodges you would need to carry a lot of cash including the tip money too. Having this amount of money with you will be a security risk and for peace of mind, it is better to pay for the meals to us when booking the trip. Also, it will be difficult to know in advance how much cash to bring with you on the trek (there are no ATMs when on trek). Furthermore, in practice, it will be complicated and time-consuming for you and the guides to work out individual bills after checking out each day from the lodge.

With our meal plan, you can select your dishes from the menu at the lodge. In our package, we include the cost of your breakfast, lunch, afternoon tea, and dinner. Breakfast includes cereal, porridge, or rice pudding and an egg dish with bread or toast. Lunch includes one dish such as fried rice, dal bhat, momos, or pasta. For afternoon tea, you get a hot drink plus biscuits. Dinner is two courses including soup and the main dish chosen by you from the menu. You are allowed two cups of hot drinks per meal so this means a total of seven cups per day.

We cater to a variety of dietary requirements. There are always meals that are suitable for vegetarians. During booking, we find out if you have any dietary needs and agree upon meal plans before departure. If you have any questions about the food provided please get in touch with us to discuss further.

Threat and risk assessment

THREAT AND RISK ASSESSMENT FOR UPPER MUSTANG

Participants should be aware trekking, mountaineering and travelling in a developing country are activities that involve a risk of personal injury or death. As a condition of booking you must accept these risks and be responsible for your own actions and involvement.

Adventure travel requires an open and flexible attitude. You may experience extreme conditions, unpredictable weather and last-minute changes to the itinerary beyond our control. The ability to work in a team is an important aspect of all of our trips.

As a part of our planning process, we have performed a detailed threat and risk assessment for our Upper Mustang trek. It is worth pointing out that all of our trips have a certain degree of risk, this is of course part of the attraction of adventure travel and why so many people choose to join this type of holiday. However, by identifying the potential hazards on Upper Mustang we can assess the level of risk and implement control measures to reduce this happening.

Our full threat and risk assessment for Upper Mustang is available to clients on request. For your information we have listed below a summary of the significant risks and hazards identified by us:

- Falls and trips resulting in physical injury eg. slipping on ice or falling off the path.
- Altitude illness including but not limited to AMS, HACE, and HAPE.
- Severe bad weather and conditions when camping.
- Climatic injuries (dehydration, sunburn, heat exhaustion, hypothermia, or heat stroke).
- Crossing a river with no bridge resulting in drowning and/ or a fall.
- Rockfall and landslides.
- Lightning strike.
- Wildlife, pack animals (eg. donkeys or horses), or stray dogs. Pack animals have been known to knock people off the path. Dogs can attack and bite, we advise you to discuss rabies vaccination with your doctor.
- Earthquake.
- Risk of fire in the hotel or lodge.
- Endemic local diseases. We advise you to discuss vaccinations with your doctor before departure.
- A physiological injury such as a heart attack, appendicitis, hernia, toothache, etc. in a remote area.
- Road traffic accident.

- Flight accident [see paragraph “Internal flight” for further information].
- Contaminated food and/ or water.

This trip visits a remote area where you are away from normal emergency services and medical facilities. In case of a serious injury requiring hospitalisation evacuation could take up to several days and may impede your ensuing recovery. Helicopters are the most usual means of evacuation, however, they are not always available or they may be hindered by poor weather and flying conditions.

Internal Flights

INTERNAL FLIGHTS

Foreign, Commonwealth & Development Office (“FCDO”) travel advice from UK to Nepal states that “STOL airstrips in Nepal are among the most remote and difficult to land on in the world and are a challenge for even the most technically proficient pilots and well-maintained aircraft.” For their latest advice please take a look at their [Safety & Security section under Air Travel](#).

There have been a number of recent air accidents in Nepal and in December 2013 The European Union banned all airlines based in Nepal from flying in the 28-nation bloc under the latest changes to a list of unsafe carriers. For more information on Nepal’s air safety profile take a look at [Aviation Safety Network](#).

HOTEL AMBASSADOR IN KATHMANDU

We have used [Hotel Ambassador](#) in Kathmandu for our groups since it was rebuilt in 2017. Since then we have received positive feedback on their service and location. This is our first choice hotel for trekking groups in Kathmandu. Rooms are well appointed with a reliable supply of hot water for use in the shower. The windows have double glazing so it keeps the rooms very quiet. They serve an excellent breakfast buffet from 7am to 10am. A sundowner on their rooftop bar and restaurant called Foreign Affairs is a must do!
